Lyons CSD Board of Education Goals 2021-2022

Adopted on December 14, 2021

The Lyons Central School District Board of Education will:

1. Provide the resources necessary to improve academic performance at all grade levels. By the end of the 2021-2022 school year, the Lyons Central School District will be on par academically with the other ten Wayne County school districts as measured by NYS 3-8 and Regents testing.
2. Provide the resources necessary for a purposeful communication plan that benefits all stakeholder groups. By June 2022, the District will have established and implemented a Communications Plan that builds and fosters strategies which support a connection with students, staff, and community members.
3. Formalize the development of a Strategic Plan. By June 2022, the Lyons CSD will begin the initial steps of strategic planning. The purpose of the plan will be to formalize the mission, vision, values, and goals of the Lyons Central School District.
